

## Attractive business and tourism location with high quality of life within the area of the Baltic Sea

The region Mecklenburg Lake District is located in the crosslines of the metropolises Berlin, Hamburg, and Szczecin half-way between the federal capital Berlin and the Baltic coast. High level centre is the city Neubrandenburg with approximately 70,000 inhabitants.

Favourable traffic connections and short distances to domestic and foreign markets via the motorways A 19 and A 20 are site advantages of the region. In addition, the Mecklenburg Lake District can be reached via the regional airport Neubrandenburg-Trollenhagen with international flight safety standards as well. You can reach the international airport Berlin-Tegel in approximately 1 hour by car.

The region Mecklenburg Lake District is known and valued by its inhabitants as well as far beyond the bounds because of the unique nature and richness of waters. The definition stands for life in healthy environment and relaxation in a charming scenery. This is the basis for the development of an efficient and future proof economic structure within the field of the metal processing industry. The region positions as attractive business and tourism location with high quality of life within the area of the Baltic Sea.

You will find well qualified, highly motivated, and flexible workers. You are able to invest in an assured future on a solid basis by means of such potential.

We provide customer-made, completely developed properties according to your ideas up to industrial areas of several hundreds of hectares within our commercial districts.

A non-repayable investment grant of up to 50 % of the promotable expenses can be granted to small and middle-sized companies of commercial industry. A grant of up to 35 % is considered for large-scale enterprises.

We have efficient administration departments providing quick approval procedures. We were able to convince many companies with regard to such investment climate of the region.
